

Fish forums with Bushy

Calling all fishing fanatics, Bushy is coming to town.

East Gippsland Catchment Management Authority (CMA), Nicholson Angling Club and Marlo Angling Club have confirmed that Kaj

'Bushy' Busch will be guest speaker at the upcoming East Gippy Fish Habitat Forums on October 25 and 26.

Run over two nights at the Marlo and Nicholson angling clubs respectively, the forums are a great opportunity

to hear from a true fishing legend, talk fishing and better understand the value of river health in our region.

"I have fished in East Gippy since I was a kid growing up and have seen the benefits of keeping our rivers, estuaries and lakes in good nick. I can't wait to come down and talk fishing with you all," Bushy said.

The forums will kick off at the Marlo Angling Club on Wednesday, October 25, and head to the Nicholson on Thursday, October 26. Both events will run from 6pm to 8pm.

"I will talk about techniques for fishing in structure and the CMA will talk about ways people and clubs can get involved in keeping our waterways healthy," Bushy said.

The forums are family friendly events so head on down for a free barbecue and a yak with Bushy.

For more details contact either of the angling clubs.

Kaj 'Bushy' Busch will speak at two fishing forms later this month. (PS)
